

Let's get your drug to the patients who need it.

At Exelead, we approach contract manufacturing with focused expertise on liposomal and PEGylated formulations to treat rare diseases and small or underserved populations. We specialize in the development and manufacture of lipid-based, parenteral drug products, and our team has more than 20 years' experience working with a wide range of preclinical, clinical and commercial customers.

End-to-end Solution

- Method Development & Transfer
- Process Development and Optimization
- Technical Transfer
- Clinical Manufacturing
- Process Scale Up
- Commercial Manufacturing
- Project Management and CMC Support

Flexible Production

- Liposomal Formulation
- PEGylation
- Aseptic Fill
- Automated Inspection
- Packaging
- Quality Control
- Sterility Assurance
- Quality Assurance
- Supply Chain
