

When experience counts and excellence matters.

Through its mastery of technical and regulatory consultation services, Lachman Consultants serves all areas of FDA-related activities for the Pharmaceutical, Biotechnology, Biologics, Diagnostic, Device and Allied Health Industries. The associates of Lachman Consultants are proficient in the development, implementation and management of diversified projects involving scientific principles, technical aspects and regulatory requirements.

▶ FORTY YEARS OF ACHIEVEMENT

Since 1978, Lachman Consultants has provided expert compliance, regulatory affairs and technical services to clients around the world, helping prevent and resolve compliance problems and assisting in the development of efficient and effective strategies for the submission and approval of drugs and devices.

▶ RESPECTED AND REFERRED

Lachman practice groups collaborate extensively to ensure that problems entrusted to us are addressed from all angles, consistently delivering thoughtful, comprehensive and effective solutions. It's why clients repeatedly turn to Lachman Consultants and refer others for help with their most pressing compliance and regulatory issues.
