Quick Listen: Scrip's Five Must-Know Things

by Ian Haydock

In this week's podcast version of Five Must-Know Things: Merck & Co. tells *Scrip* oncology will remain a key priority; J&J is responsibly cautious on growth; Takeda pays big for HutchMed drug; industry looks at likely US IRA impact; and lecanemab misses out on EU fast-track treatment.

Join us for an audio catch-up on the major events in the biopharma industry over the past business week, as reported by *Scrip*'s global team, in this podcast version of Five Must-Know Things.

This episode covers insights for the business week ended 27 January 2023, including: <u>Merck & Co., Inc.</u> tells *Scrip* oncology will remain a key priority; <u>Johnson & Johnson</u> is responsibly cautious on growth; <u>Takeda Pharmaceutical Co. Ltd.</u> pays big for <u>HUTCHMED (China) Limited</u> drug; industry looks at likely US IRA impact; and lecanemab misses out on EU fast-track treatment.

This and all our other podcasts are available on the Pharma Intelligence channel on <u>Apple</u> <u>Podcasts</u>, <u>Google Podcasts</u>, <u>SoundCloud</u>, <u>TuneIn</u> and <u>Spotify Podcasts</u>, and via smart speakers if one of these platforms has been set up as your default podcast provider.
